### A Letter to Sue in Seoul

Dear Sue,

How are you? I am glad that you can be my pen-friend. Let me tell you more about Hong Kong.

Hong Kong has a number of restaurants and that's why people call Hong Kong as "Food Paradise". There is a wide variety of food in Hong Kong such as Chinese, Japanese and Italian. The food is yummy and people from other countries are willing to travel long distance and taste the delicious food.

Meanwhile, Hong Kong has a beautiful Victoria Harbour and the view is gorgeous. It is very popular among the eyes of tourists as they always spend the night time to take photos with their families.

Besides, Hong Kong's transport system is very well developed. It has tunnels and highways. We can travel to different parts of the territory easily by taking the MTR train, bus and mini bus.

Last but not least, Hong Kong has two theme parks. They are Disneyland and Ocean Park. We can try many wonderful rides and watch interesting shows.

Therefore, Hong Kong is an attractive place to visit.

Can you tell me more about Seoul? Write back soon.

Love,

Tiffany
